**San Carlos Estates WCD-** *Signature next week*

**CDDs-** *Reports are being submitted to district boards for approval and signature*

- **Items of Interest:**

Discussion of the Responsibilities Matrix...line by line to help define issues and solutions.

The BMAP activities for the Tidal Caloosahatchee...the co-permittees need to come up with a statement the BMAP pollution load reduction goals (PLRGs). The goals outlined by the FDEP are only their best guess and the commitments for each entity are for the period since 2002 thru the first years of the BMAP. The FDEP is committed to reassessing their estimates of the PLRGs to refine the final goal for the basin to achieve the TMDL. We need to come up with the language we think should be used to describe our commitment.

The next stormwater operator's classes will be September 11-12 and October 11-12, contact Leigh Simmons for sign up information (533-8135)

- Next Meeting...September 15, 2011
- **Only a Notice of Cancellation will be sent.**
